Page Speed

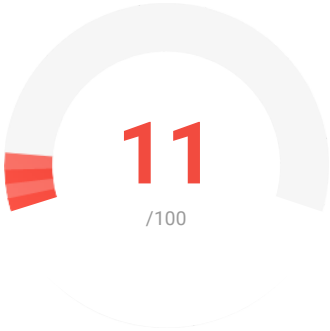

Below is your page speed score for your website's homepage on a mobile. The higher the number, the better the performance. **Your website loads very fast - great job!** This will be having a positive impact on both your SEO performance and your customer experience.

Below the scores you will find a list of actions we have identified to improve your website's speed even further. These are bespoke recommendations direct from Google for your website.

Backlinks

Your backlink score isn't very good - you need to build some backlinks.
Below shows you how many backlinks your website has.

A backlink is a link from another website to yours, and it really helps your SEO. At the moment, your backlink score is very low and it is because you have a small number of backlinks from valuable websites, so you want to improve this as soon as possible.

Total Backlinks	Linking Websites	Website Authority
63	30	2/10

Here are up to 7 of the top backlinks you have.
